

EQUIPMENT UPGRADE KIT

Belt Tier Extension Kit

Boost throughput and quality in your spiral freezer

An upgrade kit can give you more throughput, greater operating safety and better hygiene on your existing equipment - with quality results.

If you have increased production volume, or significantly changed your product range, or need to do so, since you first installed your GYRoCOMPACT® self-stacking spiral freezer, you may not get the best possible freezing results.

If you add additional belt tiers, you can improve both capacity and processing flexibility, because you will be able to increase throughput.

Ensure maximum ball rail lubrication

The modular design of the patented self-stacking FRIGoBELT® conveyor enables you to add belt tiers to your freezer

If you have significantly increased production volume, or your products now require longer holding times, then a change of stack height may be the best way to freeze your new products under optimum conditions. The Belt Tier Extension Kit cost-efficiently optimizes your production throughput and increases capacity.

How does it work?

First, you will receive a visit from one of JBT's consulting engineers, to re-view your current configuration and product range, as well as your projected needs.

At this point, we can give you an accurate estimate of modification cost and time frame, and the benefits that you should derive from upgrading with the Belt Tier Extension Kit.

What are the benefits?

- Fast payback
- Better yield and throughput
- Better food product quality
- Minimised damage and waste

What's included?

- FRIGoBELT®
- Steel extension (stans mezzanine level)
- Enclosure wall extension if needed
- Air balance measurements
- Optimum tie extension calculation based on the Gyro-Cap®
- Installation, normally 2-3 days

What does it cost?

The cost of the Belt Tier Extension Kit depends on a variety of factors. Please contact your JBT representative for an exact quotation as well as a calculation of your potential payback time.

As always, we stand behind what we sell. One call gets it all.
