

Endura-Fresh™ AVO 500

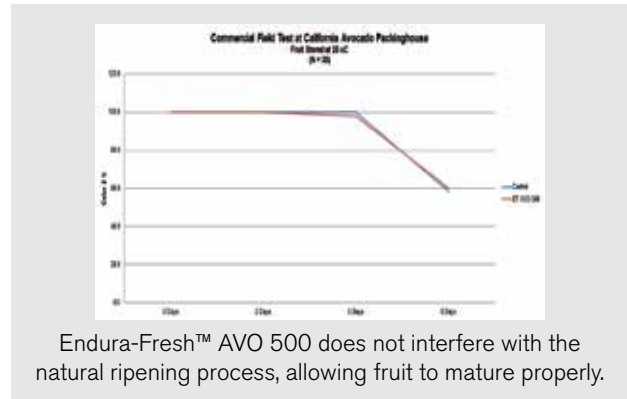

Endura-Fresh™ AVO 500 does not interfere with the natural ripening process, allowing fruit to mature properly.

JBT introduces Endura-Fresh™ AVO 500, a high quality, innovative protective coating formulated with quality ingredients that uniformly coat and adhere to the fruit surface for maximum shelf life protection. Endura-Fresh™ AVO 500 is made of food grade components that conform with FDA regulations, 21 CFR, Part 172, for food use coatings.

Product Features & Benefits

- Excellent in dehydration control versus a non-coated treatment
- Maintains high shine from packing house to final market destination
- Minimizes shrinkage appearance in cold and ambient storage
- Does not interfere with natural ripening
- Highly resistant to whitening
- Easy to apply with good leveling and no smudging on fruit surface
- Highly versatile over a wide range of climatic conditions
- Dries quickly over heated or non-heated dryers

Endura-Fresh™ AVO 500 does not interfere with the natural ripening process, allowing fruit to mature properly.

For additional information on Endura-Fresh™ AVO 500 and other postharvest products, call your JBT Sales Representative today.
