

# AVURE® HPP

**GREAT  
PRICE  
& VALUE**

## AV-20M

### JBT-Avure HPP Previously Owned AV-20 Machine For Sale or Lease

The industry's most reliable vessels. A food science team led by the world's foremost HPP expert. And more HPP systems installed than all our competitors combined. See how our unmatched expertise can maximize production, efficiency and ROI for you.

## PRODUCT SPECIFICATIONS

# AV-20M

### PRODUCTION RATE/CYCLE TIME

The AV-20M can process up to 237 kg per cycle (522 lb.), depending on product size and packaging. Excluding hold time, the complete cycle time is less than 8 minutes.

**Cycle Count:** 24,800

**CE Certified, ASME Certified**

**Manufactured:** 2018

**Maximum operating pressure:** 600 MPa (87,000 psi)

**Maximum vessel temperature:** 50° C (122° F)

**Pressure vessel volume:** 350 liters (92.5 gal)

**Total vessel and frame weight on foundation:** 50,000 kg (110,000 lbs.)

**Length including material handling:** 12.9 m (42.6')

**Width of press:** 3.5 m (11.7')

**K11A intensifier pump (dual configuration)**

**Power requirements, dual pump configuration:** 150 kVA, 3-phase, 400 V, 50 Hz

**Country of origin:** Made in the USA

**SURE Inspected  
System Uptime Review  
and Evaluation**
