

Bin Scrubber System T-Series

Patented technology, which maximizes cleaning efficiency, food safety, and cost savings solutions.

The JBT Bin Scrubber System (T-Series) sets a new industry standard. It is a patented technology, which maximizes cleaning efficiency, food safety, and cost savings solutions.

Product Features & Benefits

- Cleans and scrubs up to 140 bins per hour
- Cleans up to 48" tall bins
- Powered linear actuation system allows for brush rotation and telescoping
- Low horsepower motors reduce energy cost over competitive units
- Designed for existing bin lines or stand-alone off-line system
- Excellent water containment allows for low water consumption
- Stainless steel construction; provides a durable, long lasting, and food safe system
- PLC controlled system and operator panel allows for easy manual adjustments
- 500 gallon water tank with built in filter; adequate storage for daily use

SPECIFICATIONS

ELECTRICAL REQUIREMENTS 480 VAC, 3-Phase, 90

AMPS WATER SUPPLY 7-12 Gallons/Min

POWER CONSUMPTION 14.9 Kilowatts

OPTIONAL ADD-ONS

CHEMTROL SYSTEM Controls pH and ORP of recycled water with user interface programming and data-logging

SANITIZING SPRAY RING WITH CONTROLS Applies sanitizer to bins when exiting the scrubber

ACTUATED BLOWER SYSTEM Blowers aid in water drying process after bin has been scrubbed

OPTIMIZED SPRAY MANIFOLD PLACEMENT Rinse manifolds spray water into the bin during the process, as a means to flush out bins after scrubbing
