CHICKEN SHOULDER AND NECK SKINNER

Models: CSNS-2, CSNS-2C

The CSNS-2 Chicken Shoulder and Neck Skinner utilizes two of Prime Equipment's patented bladeless skinning assemblies, making it the perfect solution for in-line neck and shoulder skinning. The machine also features a positive-feed indexing device to keep birds upright and properly spaced to avoid dragging as seen with peeler-roller type machines. The CSNS-2C effectively removes additional crop on 100 percent debone lines.
