

# PLF International Project Management

## PLF Filling System

Fills and weighs containers, with an optional in-line gassing system to maintain low residual oxygen

From initial concept and budget management,  
to installation.

## Project management

**Whether our customers are investing in a standalone filling machine, or a fully integrated processing line, PLF offers a comprehensive management service. From initial concept and budget management, to installation and compliance with all relevant legislation, our aim is to identify and fulfil a customer's requirements throughout a project.**

### Quality assurance

To ensure projects are designed and developed to the highest standards, PLF assesses every customer's methodology in detail. We will then work with the delivery team to either wholly adopt an organisation's approach or offer suggestions to provide the optimum solution.

### Dedicated contact

We will assign a PLF Project Manager (PM) to oversee the successful delivery and installation of our filling machinery.

## Features & benefits:

- Site survey: Equipment placement that optimises floorspace and productivity
- Line/equipment simulation to optimise line performance
- 3D scanning to gather vast amounts of data for review and analysis
- Budget planning and review: Managing expectations for all stakeholders
- Keep installation targets on track
- Design and specification: Generating equipment concepts that fulfil requirements
- Procurement and purchasing: Sourcing the best quality materials within budget
- Installation and commissioning: Check, inspect and test operational components before operational phase
- Turnkey line integration
- Method statement and project schedules: Ensuring ongoing efficient operation of turnkey line, and particularly the filling machine
- Operator and engineer training: Maintaining high quality operation of equipment

## Turnkey line projects

We can offer a complete turnkey line from initial inception, through to delivery, commissioning and long term service.

Here is an example line from PLF, highlighting the scope of our expertise and product offering.

### Depalletiser

Receives pallets, destacks containers into a single row for feeding into the line

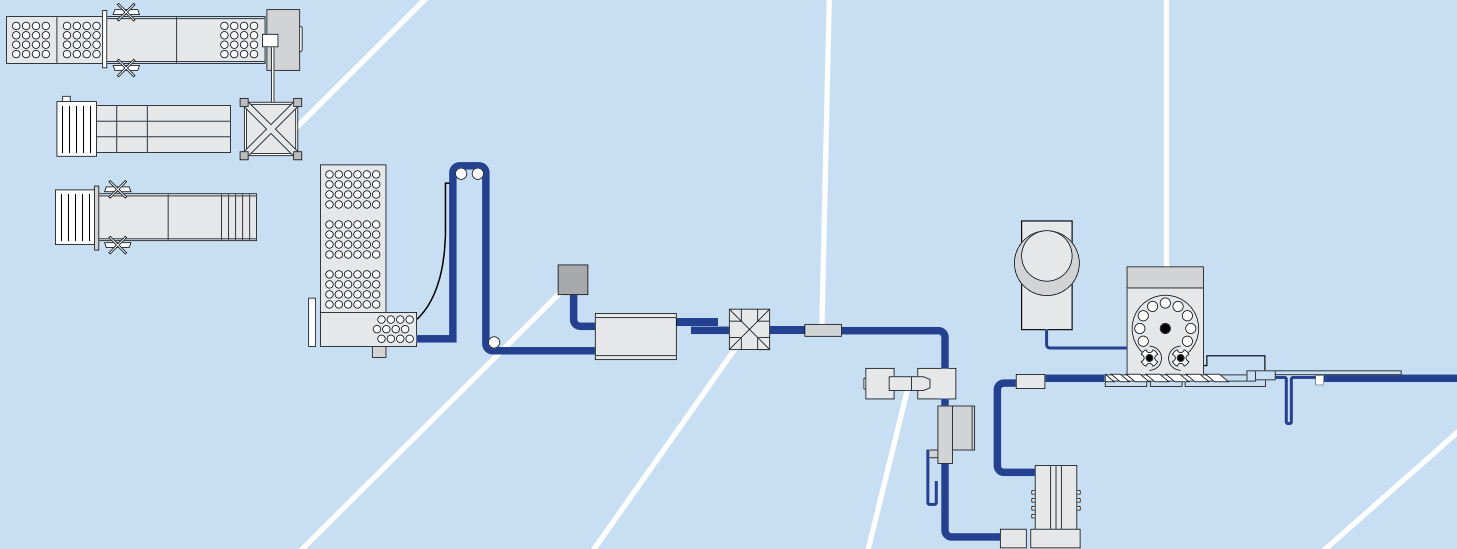

### Container UV

Sterilises the inside of the can

### PLF Filling System

Fills and weighs containers, with an optional in-line gassing system to maintain low residual oxygen

### Cleaner

Removes any debris from within the container

### Vision System

360° check of the container. Verifies barcode and detects any print defects or damage

### PLF Scoop Inserter

Places scoop in the container. A vision system confirms correct colour and placement

### Seamer

Places and seams the can end to the can

**Labelling System**

Applies a label to the container

**PLF Laser Coder**

Prints batch information on the base of the container. Includes serialisation coding utilising 2D Datamatrix codes

**Leaflet Inserter**

Applies a leaflet to the container

**Palletiser and Stretch Wrapper**

Collates the cases on a pallet and wraps the pallet in film

**Can End Feed and UV System**

Feeds and sterilises the can ends to the seamer

**Over Capper**

Applies a cap to the container

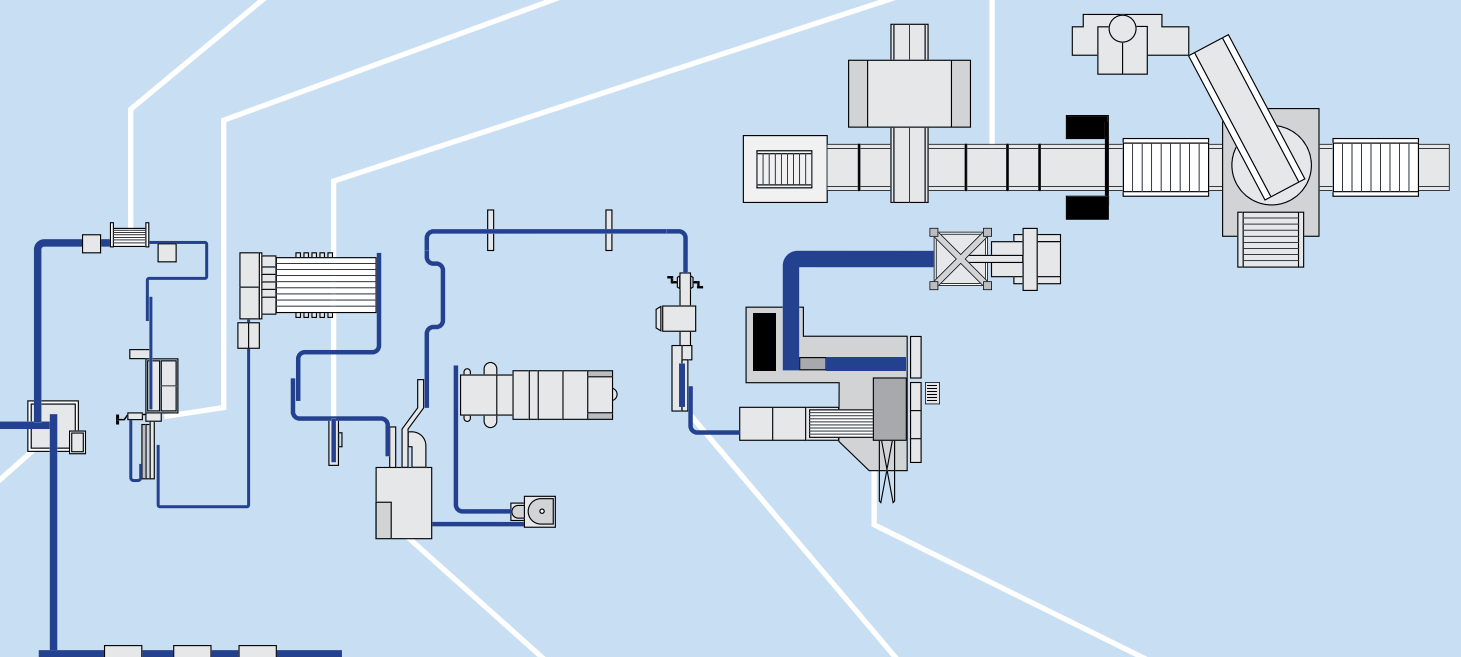

**X-Ray**

Checks for foreign bodies within the container

**Case Packer**

Collates and places the containers within a cardboard case

---

## Working together from the outset

PLF works with clients from the earliest possible stages to ensure a successful project. Clearly defined objectives, backed by carefully conceived workshops, ensure an installation of any size is delivered on time, on budget and to the specification required.

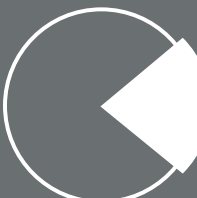

**TECHNICAL SOLUTION**  
Design plant to deliver forecasted volumes

**OPERATIONAL SOLUTION**  
Determine manpower and operational procedures

**PROJECT PLAN**  
Create a detailed roadmap to project delivery

**OUTPUT**  
Deliver a successful project to pre-agreed guidelines

Every PLF product is specifically manufactured to accommodate the exacting needs of each customer, resulting in a bespoke system tailored to their requirements. Such an approach has established PLF as a worldwide market leader, with a customer base that includes global brands in the food, pharmaceutical and beverage sector.

At PLF International, we are committed to exceeding the expectations of our customers by combining a superior level of expertise with high quality products, all backed by first-class service.

# COUNT ON JBT TO HELP PROTECT YOUR INVESTMENT

JBT's greatest value in PProCARE® services comes from preventing unexpected costs through smart, purposeful, and timely maintenance based on unmatched knowledge and expertise. PProCARE service packages are offered as a maintenance agreement in various service levels, depending on your production and cost management requirements.

**PRoCARE®**
